Hi Nancy, I don't have a name for you, but it would be personnel assigned to the mine site, just as were assigned for the last Monday sampling.

Thanks .. will let them know ..do we know who will take the sample for them? Also, will ask them if they are interested in the second sample we took.

Thanks ng

Subject: FW: Additional constituent sampling

Nancy,

In order to limit impacts on the critical activity at the Mine, by La Plata County's request to take samples at the adit, Incident Command recommends the sampling be conducted Sunday or after 5 pm on a weekday next week.

Thanks Nancy. Just to clarify, is Sunday the date that has been chosen for us to complete the sampling? Based on email traffic I thought perhaps you were also exploring a week day early next week.

Sheryl

Subject: RE: Additional constituent sampling

Sheryl et al,

The answer to your question is below:

Water and sediment collected from the pool inside the adit, as far back as could be safely accessed, approximately 50 feet inside mine opening.

Also, do you know if someone representing the county will be available on Sunday, 9/30/15 to participate in the sampling the County would like to do? There will be someone on site who can assist with collection of the sample(s).

Please let me know and we will make the necessary arrangements.

Thanks

Nancy Grantham

Nancy: In addition to the issues we discussed earlier, can you find out where Dan Wall pulled

his samples from?

Sheryl Rogers
